

Study Area for TPWD's Conservation License Plate Funding Priority No. 7: State Status Assessment for Frosted Elfin Butterfly

The five orange-colored counties are ones for which there are post-2010 records for Frosted Elfins. The one light lime-colored county is listed by NatureServe as being in the Frosted Elfin range but for which we are unable to locate any documented records. The remaining 25 light green-colored counties are ones for which there are pre-2010 Frosted Elfin records.
