### **Other NABA Publications**

#### ***NABA Checklist & English Names***

The second edition of the checklist includes all 722 species of butterflies that have been recorded in North American, north of Mexico and in Hawaii, giving both English and scientific names

#### ***Enjoying Butterflies More***

In this 32-page booklet, you will learn about butterflies and how they behave. You will learn how to find butterflies in the wild, how to attract them to your garden, and how to identify what species of butterfly you're watching.

#### ***NABA Butterfly Count Report: 4<sup>th</sup> of July (U.S.), 1<sup>st</sup> of July (Canada), and 16<sup>th</sup> of Sept. (Mexico)***

These annual reports are available for years 1982-2010, 2012, 2014, 2015, 2016, 2017, 2018 and 2019.

### **Please Consider a Tax-Deductible Donation to NABA**

Donations to NABA are tax-deductible and can be designated towards many projects:

- ❑ **NABA Butterfly Center** on 100 acres of land fronting the Rio Grande River in Mission, Texas is celebrating ten years of growth! NABA Butterfly Center provides an important link in the wildlife corridor along the Rio Grande Valley that is being created by the United States Fish and Wildlife Service. The Lower Rio Grande Valley contains the most diverse butterfly fauna in the United States and is also one of the most endangered ecosystems in the United States. Your donation will help to preserve both butterflies and an endangered ecosystem.
- ❑ **NABA Florida Butterfly Movement** in extreme southern Florida, NABA continues working to learn about and save rare and endangered butterflies. An innovative project to save Bartram's Scrub-Hairstreaks by planting crotons throughout south Florida is now underway. NABA was directly responsible for the State and Federal listings of Miami Blue as an endangered species and has funded research on Schaus' Swallowtails. NABA continues to speak out against toxic mosquito spraying.
- ❑ **NABA Swamp Metalmark Fund** has been created to protect the Swamp Metalmark butterfly and its habitat, as well as other butterflies of the upper Midwest United States.
- ❑ **NABA General Fund** donations are used to support projects that we see as critical for NABA's mission of butterfly conservation
